Results

Friday, April 02, 2010
11:06 AM

Under the classroom page select the class then the test results you wish to examine.

The results page has four different tabs.

The 'test scores' tab provides individual students' scores and a class average.

Standards

Tuesday, April 06, 2010
5:29 PM

The standards page details the percentage of students who successfully answered groups of questions relative to the content standards they were selected from.

The following is the standard's results of an actually assessment for incoming freshmen algebra students.

Item Analysis

Tuesday, April 06, 2010
5:39 PM

The item analysis provides the instructor with the percentage of students who successfully answered each question. The instructor can then evaluate his/her own teaching strategies on specific content where the students didn't perform as well. Items 1,3,5,9,10,11 should all raise concerns, as less than 50% of the class got those correct.

District Report

Tuesday, April 06, 2010
5:50 PM

Using Achievement Series will provide our district with a quick and easy mechanism to generate reports. The Madison Central school district will be able to identify the strengths and gaps in instruction relative to our state standards. These reports are accessible by a manager through the 'district report' tab.
